IS-SCHOOL

The New Schedule of Training Program 2026

Thank you very much for your continuous supporting our IS-School Training Program. For this opportunity, we would like to inform you about the new schedule of IS-School for the year 2026. The details are as follows.

✿ Details of each Course.

1) Basic and Maintenance course for EC machine. (Electric Machine)

**Suitable for beginners to work with injection molding machines or those interested.

Content: Basics of using an injection machine molding machine "Electric System".

- Machine structure and basics of using an injection machine "Electric System".
- Main usage and settings of the display screen (Inject visor) and setting.
- Safety system for using a Shibaura injection molding machine.
- Machine maintenance & periodic inspection.

2) Molding course for IS & EC machines.

**Suitable for technicians who know the operating structure of the Shibaura injection molding machine.

Content: Basic Techniques of Plastic Injection Molding whole injection machine "Hydraulics and electrical systems".

- Plastic injection structure and temperature control of each type of material.
- Determination of Clamping force, Injection pressure, Injection time and Plastic volume control.
- Cause of Molding defective & Solution.

3) Basic course for TD-TOGGLE / TX-HYDRAULIC RAM machine (Hydraulics Servo pump Machine)

**Suitable for beginners to work with injection molding machines or those interested.

Content: Basics of using an injection machine molding machine "Hydraulic System".

- Machine structure and basics of using an injection machine "Hydraulic System".
- Main usage and settings of the display "VCON" screen and setting.
- Safety system for using a Shibaura injection molding machine.

4) Electrical system course for IS & EC machines. (New course special)

**Suitable for technicians who know the operating structure of the Shibaura injection molding machine.

Content: Checking the electrical system of the machine to find the cause of the problem with the machine.

- It is a method of checking and reading the electrical circuits of both, Hardware schematic diagram and Software schematic diagram.
- Troubleshooting and alarm code list.
- How to check Input-Output signal.
- Examples of problems that actually happened and how to solve them.

Remark:

In the program of the basic course and maintenance course for IS-Machine (Hydraulic machine). It will be removed from the program in 2026. We apologize very much here as well.

But basic course and maintenance course for IS-Machine (Hydraulic machine), We can do according is available upon customer's request.

SHIBAURA MACHINE (THAILAND) CO., LTD.

127/28 Panjathanee Tower 23rd Floor , Nonthree Road, Khwaeng Chongnonthree, Khet Yannawa, Bangkok 10120

SHIBAURA MACHINE

IS-SCHOOL

🌟 Schedule

Month	Date	Description
Feb. 2026	18 ~ 19	Basic & Maintenance Course for EC machine
May. 2026	20 ~ 21	Basic & Maintenance Course for TD/TX machine
Jul. 2026	22 ~ 23	Molding Course for IS & EC machine

- 🌟 **Lecture Fee: Course 2 days 3,500 Baht / 1 person / 1 Course** (Exclusive of Vat 7%)
(Inclusive of Text Book, Coffee Break and Lunch)
TAX ID NO. 0105532041759

Lecture Fee	Vat 7%	W/T 3%	Total lecture Fee
3,500. -	245. -	105. -	3,640. -

🌟 Schedule new course "Electrical system" (special course)

Month	Date	Description
Sep. 2026	9	Electric system Course for IS & EC machine

- 🌟 **Lecture Fee: Course 1 day** (Electric system course)
2,000 Baht / 1 person / 1 Course (Exclusive of Vat 7%)
(Inclusive of Text Book, Coffee Break and Lunch)
TAX ID NO. 0105532041759

Lecture Fee	Vat 7%	W/T 3%	Total lecture Fee
2,000	140.-	60	2,080

- 🌟 **Place & Time:** "Technical Center" Shibauro Machine (Thailand) Co., Ltd.
Amata City Industrial Estate: 7/499 Moo 6, T. Marb yang porn,
A.Pluakdaeng , Rayong THAILAND Tel: +66(0)3802 7313
Time: 09:30 am ~ 4:30 pm (2 days and 1 day course) (Gathering 09:15 am)

Remark 2: We reserve the right to cancel if there are less than 6 people who have booked the training. We will inform you one week in advance.
